

DISASTER REMEDIATION

Complete clean in less time = Increased profit

When disaster strikes, the demand for immediate clean-up follows. Whether fire, smoke, water or mold damage, traditional cleaning methods are time consuming and tedious, not to mention ineffective for complete removal. Dry ice cleaning is up to three times faster than traditional methods and provides a more thorough clean, even in tight angles of trusses and around nails and wiring. In addition, dry ice blasting achieves 99% mold spore removal from wood.

KEY BENEFITS

- Reduce cleaning time
- Reduce labor requirements
- No secondary waste
- Chemical-free process
- 99% mold spore removal on wood when IAQA standards follow
- Remove odor from fire damage
- Environmentally responsible

Fire and Smoke Restoration
Mold Remediation

Odor Elimination
Water Damage

APPLICATIONS
